Pexco is the solution.

Custom

For over 60 years, Pexco has been designing and manufacturing innovative custom profile, tube and sheet solutions. From metal to plastic replacement, simple to complex, large scale to small, we're here to solve any of your plastics challenges, efficiently and effectively through our comprehensive capabilities.

Custom Satisfaction

Satisfying our customers with outstanding service is our number one goal. Because at Pexco, we're not satisfied unless our customers are. It's why we put our expertise and experience to work in solving the most complex challenges. And it's why we're recognized as providing best in class customer service.

Eight plants to get the job done right

Part of the reason we can provide such a high level of customer satisfaction is our ability to ensure quality products at great prices. We're able to do this through our eight plants located across North America. Allowing us to work efficiently and effectively, ensuring on-time delivery and lower transportation costs.

Custom solutions we've made include:

Airplane cabin interior components

Medical tubing

Traffic safety extrusions

Retail store fixtures

Lighting components

Fencing products

Plastic sheet & profiles for the boating industry

Environmental measuring tools

Better serving our customers through:

- Comprehensive capabilities – extrusion of profile, tube, sheet in addition to fabrication and assembly
- ISO standards – meeting quality standards every time
- SLA capabilities – ability to turn concepts into model prototypes
- “Problem Response” Service – guarantees there will be a team ready to build a custom solution for you
- Access to inventory, shipping and lead times
