Introducing the O-Frame Parade Barricade

Tacoma, WA

You have never seen anything quite like the O-Frame Barricade!

Far superior to traditional A-frame barricades, the O-Frame is perfect for cordoning off crowds at events and parades, with many distinct advantages like ADA conformity, MUTCD compliance, exceptional strength, and a unique feature for customized branding!

The O-Frame is the only Parade-style barricade which complies with Section 6F.38 of the 2003 MUTCD, addressing Detectable Edging for Pedestrians in Work Zones. The O-Frame also complies with the requirements of the Americans with Disabilities Act (ADA).

Key features & benefits of the O-Frame Barricade are:

- ✓ Flexibility to convert to an MUTCD-compliant Type I or Type II barricade, using all the same components
- ✓ Flexibility to convert to an ADA-compliant Type II barricade, using all the same components
- ✓ The only barricade on the market which carries a 3-year warranty.
- ✓ Molded in holes & stubs for attachment & stabilization of barricade lights.
- ✓ Easy stacking for transport and storage.
- ✓ Utilizes either plastic or traditional boards.

Davidson Traffic Control Products is part of Pexco LLC, a global manufacturer of plastic products with decades of technical & engineering expertise.
