Marker

TRPM Chip & Slurry Seal Markers Save Time, Money & Lives

Keep work zones safe for your crew and drivers.

Work zones create hazardous driving conditions for drivers. Each year thousands of people are killed in work zone related accidents. Improved road markings and safer application methods hold the promise of improved safety and reduced accidents.

Using TRPMs in a chip seal operation is a proven and effective practice. TRPMs provide positive guidance to drivers both day and night. TRPMs are visible at night up to distances of 400 feet, providing excellent delineation. An additional benefit of TRPMs is that they provide a reference point for paint crews during the re-stripping process.

The TRPM utilizes a cube-corner micro-prismatic reflector. These tough reflectors are very bright, resist cracking and peeling, and provide superb visibility from long distances, giving the driver advance warning of the road.

Minimize "work zone safety" worries and increase safety and savings by utilizing TRPMs in all your sealing projects.

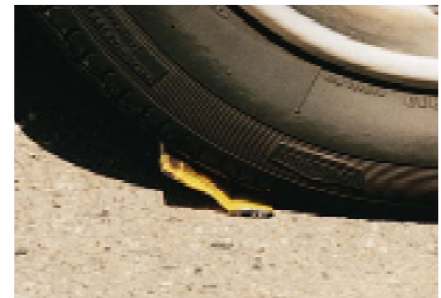

Save Money and Time! Self Adhesive TRPMs take only seconds to install

In an era of decreasing budgets and increased timelines, TRPMs provide an opportunity for enormous cost savings. Quick, simple placement reduces the time that your crew is exposed to traffic. TRPMs can be installed in only seconds by one worker with no special equipment, providing high profile delineation on freshly sealed roads prior to permanent striping. Our unique adhesive system keeps

the flexible TRPM securely in place. When the roadway is ready, TRPMs precisely guide the crews who are responsible for installation of permanent striping. TRPMs are your smart choice for all chip and slurry projects.

- Davidson's TRPMs provide everything you need for a successful chip seal project:
- Highly visible, tough poly-urethane marker body
 - Effective and inexpensive lane delineation
 - Temporary traffic markings that are visible both day and night
 - Safety for workers-less time spent in traffic
 - Cost savings-installation takes only seconds

Davidson offers free downloadable CAD drawings and specifications from our website. Contact your local sales representative or email: hwysales@pexco.com for details
