The FinLink® Slat offers extra screening and security with a unique configuration of (3) three privacy fins.

FinLink provides a quality looking installation and is used together with our proprietary bottom channel. This process ensures that all slats are even in the wire and will not slip to the ground.

**Design**
Our unique innovative design includes a rigid, flat tubular body, with “legs” inside for extra support. Three flexible fins (two on one side and one on the other) are positioned on the side of the slat body. The FinLink fins are not serrated, thus providing a smooth finished look.

**Standard Heights**
4, 5, 6, 7 and 8 feet.

**Slat Length**
3½” shorter than the overall height of fence.

**Bottom Locking Channel**
10 feet provided in each bag.

**Wind Load & Privacy Factor**
Approximately 90%.

**Colors**
- White
- Green
- Brown
- Black
- Beige
- Gray
- Redwood
- Royal Blue
- Light Blue

* Exact representation of slat colors in printing is difficult. Please refer to actual color samples for final matching. Covered by one or more of the following patents: US Patent 6,068,243 / 5,165,664 / 5,234,199

**PDS**
Made in the USA

Materials
The FinLink product is extruded from High Density Polyethylene (HDPE), color pigments and ultra violet (UV) inhibitors, specifically designed to retard the harmful effects of the sun and lengthen the life of the product.

Durability
Pexco PDS® HDPE Fence Products are resistant to: severe weather conditions, salt water, sand, road dirt, most acids, alcohol, alkaline, ammonia, petroleum distillates, and common environmental pollutants.

Maintenance
Pressure cleaning of surface contaminants is quickly accomplished with plain water.

Wind Load Disclaimer
Pexco will not be responsible for damage due to wind load conditions resulting from insufficient structural support.

Limited Warranty
FinLink carries a 25-year, pro-rata warranty against breakage under normal conditions. Write Pexco for full warranty information.

Note
These are friction-fitting Fence Slats. Additional time should be allowed for installation.

Installation Instructions

Step 1
Insert rail horizontally in first full diamond at bottom of fence with open side facing up.

Step 2
Insert vertical slats with bevel end downward.

Step 3
Push the vertical slat into the horizontal channel.
