

SAFETY TOP CAP-LITE®

Safety Top Cap-LITE® is a lighter and more affordable version of our premium Safety Top Cap™.

With its teardrop shape, Safety Top Cap-LITE provides protection against bodily injury by covering the exposed knuckles or barbs on top of a chain link fence. It also increases visibility of the fence for player safety while acting as a decorative trim piece to enhance any galvanized or colored chain link system.

Comes conveniently cut in 8' lengths, and unlike some economy fence cap products, requires no special tools for installation.

Don't settle for competitive designs and styles that pose an installation challenge, do not blend with the natural contours on top of the fence, nor offer our impressive long-term warranty.

Design

Durable and flexible plastic in an open tubular teardrop shape.

Multiple Uses

Primarily used in our safety yellow color for baseball outfield. This product is also growing in popularity at athletic fields, parks, playgrounds and recreational facilities throughout the country.

Colors*

Safety Yellow

Scarlet Red

White

Green

Brown

Black

Royal Blue

Safety Yellow is our standard (stocking) color however Safety Top Cap-LITE® can also be special ordered in our standard fence slat colors and Scarlet Red upon request - minimum order quantities apply.

* Exact representation of slat colors in printing is difficult. Please refer to actual color samples for final matching.

FENCE PRODUCTS

PDS® is a registered trademark of Pexco.

Made in the USA

PRODUCT SPECIFICATIONS

Product Type	Cap Height	Cap Width	Cap Length	Contents Per Bag	Approx. Coverage Per Box	Bag Weight
Safety Top Cap-LITE®	4"	2½"	8'	10 Top Caps 40 Zip Ties	80 linear feet	20 lbs

Materials

Safety Top Cap-LITE is extruded from High Density Polyethylene (HDPE), color pigments and ultra violet (UV) inhibitors, specifically designed to retard the harmful effects of the sun and lengthen the life of the product.

Durability

Manufactured using Pexco PDS® HDPE plastic with UV stabilizers. This product is designed to endure high impact, to resist the harmful effects of the sun, and withstand severe weather conditions, salt water, sand, road dirt, most acids, alcohol, alkaline, ammonia, petroleum distillates, and common environmental pollutants.

Maintenance

Pressure cleaning of surface contaminants is quickly accomplished with plain water.

Wind Load Disclaimer

Pexco will not be responsible for damage due to wind load conditions resulting from insufficient structural support.

Security

Resist vandalism by using the zip ties to easily attach the Safety Top Cap-LITE to the fence.

Limited Warranty

Safety Top Cap-LITE carries a 15-year, pro-rata warranty against breakage under normal conditions. Write Pexco for full warranty information.

Installation Instructions

Simply "snap" over the top of the fence and lock to the wire mesh with plastic zip ties (included with each package) through the pre-drilled holes on each piece.

FENCE PRODUCTS

HDPE Technical Properties

Property	Value
Melt Index	(.35) Optimum extrusion processing conditions for Fence Slats
Density	(.945) Polyethylene ranges anywhere from .914 to .960 in density
Minimum Temp.	(-70°) Under no stress, HDPE remains flexible at this temperature
Maximum Temp.	(180°) Under no stress, HDPE will not distort at this temperature
Tensile Strength	(3,700 psi) HDPE will not distort at lesser loads or impacts
