

FLEXI-GUIDE FG 300

SURFACE MOUNT CHANNELIZER POSTS

CLOVER LEAF DESIGN FOR BUILT-IN REBOUND

Flexi-Guide FG 300 Post Channelizer posts improve safety by properly directing traffic and reducing the chance of accidents. These posts are highly visible, day and night, and clearly delineate driving lanes with bright colors and reflective sheeting. To reduce the risk of accidents, place FG 300 posts at critical points along roadways where safety hazards exist.

PEXCO

FLEXI-GUIDE FG 300

A Family of Posts

Pexco offers the FG 300 post in three grades: Model PE for general applications, Model UR, the industry workhorse, and Model EFX for the toughest installations. All models are compatible with all six of our bases as well as our curb systems. FG 300 posts are engineered to meet or exceed specifications for surface-mounted delineator posts, and have been proven on the NTPEP Test Deck, and MUTCD Compliant and MASH 16 self-certifiable.

FG 300 Posts are designed and built to provide high performance and durability for work zones, traffic separation, islands, gores, merging lanes, parking lots, pedestrian bike lanes, and many other applications.

Available in
Orange, White, Yellow & Black

Clover Leaf Design for Built-in Rebound

The innovative design of the FG 300 tubular marker provides far better rebound than simple round tubes. Curving the sides of the tube changes the moment of inertia and builds up tremendous potential energy, resulting in a quick and sharp rebound when impacted.

Pexco is a leading manufacturer of recycled traffic control products

UR AND EFX

IMPACTS
AT **55** MPH

KEY FEATURES

- Superior impact resistance for lower maintenance
- MASH-16 Self Certifiable
- Replace damaged posts in just seconds
- Withstands extreme hot and cold temperatures
- True Fluorescent colors for increased visibility
- Proven durability on the NTPEP Test Deck
- Greater reflectivity than simple round tubes
- No metal pins in bases to rust or seize
- Many heights and colors available
- Easy installation on any roadway
- Bases can be reused
