

Technical Bulletin – Anchor Cup Plug Cap

P/N 800BASE218

Anchor Cup Plug Cap

Release Date:	11/10/2014
Unit of Measure:	Each
List Price:	Call for Pricing
Construction:	Black - Plastic
Fits:	City Post Anchor Cups

Purpose:

The City Post Anchor Cup Plug Cap is used to keep anchor cups free of dirt and debris when a City Post is not installed. This product features quick installation, secure retention and easy removal.

Technical Information:

This new design allows for easy installation – simply step on the plug cap once placed in the anchor cup. (Note: a small amount of tightening is required to get a tight seal.)

This cap works with all City Post anchor cups. When the anchor cups are properly installed slightly below road grade, plug cap mounts flush with the pavement surface.

Removal the plug cap simply by unscrewing it from the anchor cup using the edge of a second plug cap, a quarter or screwdriver.
