

Spiral Wraps

***Harness,
insulate and
protect wires,
hoses, cables***

Spiral Wraps

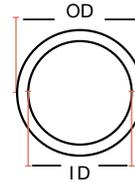

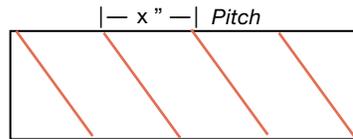

Uses

Our Spiral Wraps help harness, insulate, and protect important tubes and bundles, such as hydraulic and pneumatic hoses, wires, and cables.

Features

- Protects against abrasion, cuts, crushing and other hazards
- Reduces cable chafing and wear
- Flexible and expandable
- Rounded edges
- Withstands extreme climate and operating conditions (high and low temperatures)
- UV-resistant; Excellent strength
- Openings along cuts allow easy access to individual leads/wires
