

Pexco is a leading innovator in the design and manufacture of **complex, plastic extrusions**. We specialize in delivering highly customized extruded profiles, from **intricate geometries** and hollow structures to designs that integrate embedded metal elements. Our unmatched expertise in extruding **large, complex hollow profiles** sets us apart in the plastics manufacturing industry.

From inspiration to solution

From extrusion to molding

From acrylics to fluoropolymers

Overview

At Pexco, our extruded profiles offer distinct advantages in **plastics manufacturing** because of the exceptional versatility of accommodating a wide range of materials and producing an extensive variety of shapes and sizes.

- Up to 30" Wide Extrusions
- Meta-Plast® Metal Composite Extrusions
- Complex Extruded Profiles
- Co- and Tri- Extrusions
- Extruded Fluoropolymers, Thermoplastics, and Elastomers
- In-Line Value-Added Services and Secondary Operations
- Custom Surface Finishes – Hot Stamping, Spattercoat, Embossing

Industries Served

• Aerospace & Defense	• Lighting
• Appliances	• Industrial & Chemical Processing
• Commercial Refrigeration	• Medical & Life Sciences
• Fenestration	• Semiconductor Manufacturing
• Fluid Handling	• Telecommunications & Technology
• Healthcare & Pharmaceutical	• Water Treatment & Management

Capabilities**Custom Extruded Shapes**

- **Plastic pipes and tubing**
for plumbing, irrigation, and medical applications
- **Window and door profiles**
frames, sills, and weatherstrips
- **Protective cable conduits**
corrugated tubing for wiring
- **Cable insulation**
coatings for electrical wires and machined components

**Rubber and Elastomer Extrusions**

- **Weatherstripping**
automotive and building seals
- **Rubber hoses**
fluid supply and drains
- **Medical grade elastomer tubing**
silicone catheter tubing
- **Gaskets and seals**
continuous lengths cut to size

**Products for Specialty Markets**

- **LED Light Fixtures & Diffusers**
- **Medical Grade Tubing**
(catheters, IV lines, oxygen supply tubing)
- **Plastic fencing component**
lightweight and durable
- **Industrial conveyor belt sidewall**
- **Vibration isolation mounts and bumps**

Materials**Thermoplastics**

- ABS, PCABS, glass-filled
- PA (Nylon)
- PAI
- PBI
- PC, PCPBT
- PEI
- PEEK
- PETG
- PMMA (Acrylic)
- PSU
- PVC, FPVC, RPVC
- LLDPE
- Poly-O

Fluoropolymers

- ECTFE
- ETFE
- FEP
- PFA, UHP PFA
- PCTFE
- PTFE – virgin, filled
- PVDF
- THV

Elastomers

- CR (Neoprene)
- EPDM
- FKM, FFKM
- IR (Isoprene Rubber)
- NBR (Nitrile)
- PU
- SBR (Rubber)
- TPE

Compliance and Certifications

- ISO 9001 2015
- ISO 13485

- AS9100
- SEMI F57 & C90

- NSF 51
- NSF 61 & 372

- ITAR Registered
