CORPORATE IDENTITY PROGRAM

Pexco's PDS® Fence Slats can be supplied in your specific custom colors, defining your brand at your facility or location, utilizing existing chain link fence or a new installation. In this way you not only secure and enhance your business or institutional property, but further promote and identify your branded corporate or institutional presence.

Multiple Uses: Millions of dollars are spent every year to market a corporate or institutional image. Color is usually an integral part of the marketing mix and is a means by which a customer can identify a company and a product line or a University and their athletic team's colors. Take for example UPS' brown & gold; McDonald's golden arches; Target's red bulls-eye; Harley Davidson's black and orange; the green-orange-purple of FedEx; Notre Dame's gold and blue. At once you tie color to a name, brand, product line or athletic heritage.

Special Colors: Any custom color can be matched with UV Inhibitor to retard the harmful effects of the Sun. Minimum order quantities apply.
